WHY BAGASSE TABLEWARE?

FROM FIELD TO TABLE

SUGARCANE BAGASSE — THE FIBROUS RESIDUE AFTER JUICE EXTRACTION — TRANSFORMED INTO PREMIUM FOODSERVICE TABLEWARE THAT RETURNS SAFELY TO THE EARTH.

MANUFACTURED
IN

India
Gujarat · Karnataka ·
100% India Origin

IEC: ERDPB0046P

MADE FROM AGRICULTURAL WASTE

Manufactured from sugarcane bagasse fibre — a renewable biomass left after juice extraction. This agricultural by-product is converted into durable foodservice tableware without consuming virgin plastic materials or virgin wood pulp.

COMPOSTABLE & BIODEGRADABLE

Breaks down in industrial composting without leaving microplastic residue — a true circular economy solution. Compostability certification available for applicable product variants.

PLASTIC-FREE & PFAS-FREE

Cellulose-based material identified by FTIR; PFAS testing available in referenced reports. Independent SGS testing confirms all 19 PFAS compounds below detection limits — supporting buyer due diligence for food-contact and chemical compliance review.

FUNCTIONAL PERFORMANCE

Designed to withstand temperatures from -20°C to 140°C. Resistant to oil, water, and heat — suitable for hot and cold food applications. Microwave-safe under normal foodservice use (BS EN 15284 · Pass). LFGB sensory score: 0 / 2.5.

India-Origin Advantage

MADE IN INDIA

CEPA VERIFIED

NEW

India's manufacturing advantage is further strengthened by current global trade conditions. With Chinese suppliers now **facing import tariffs of up to 125%** in the US market and growing supply chain scrutiny across EU procurement, India has emerged as the preferred alternative source.

Sunwhale Exports offers full India-origin documentation — **Certificate of Origin**, IEC-verified export records — and **India-UAE CEPA preferential duty benefits** for **Gulf buyers**, making our bagasse tableware a compliant, cost-competitive choice for importers actively diversifying from China-sourced supply.

Certificate of Origin

India-UAE CEPA Benefits

China+1 Alternative

No US Tariff Exposure

WHO WE ARE

Your Export Partner in India

Sunwhale Exports is an MSME-registered Indian merchant exporter specialising in eco-friendly disposable tableware for foodservice and retail markets in the UAE and European Union.

We bridge certified Indian manufacturers with global importers, distributors, HoReCa suppliers, and airline caterers — managing all documentation, compliance, commercial contracting, and logistics from a single point of accountability.

Our bagasse line is sourced exclusively from fully robotic moulded fibre facility — ensuring consistent quality, traceability, and scalable supply across 27+ SKUs.

— MANUFACTURING PARTNER

OUR MANUFACTURING PARTNER

AUTOMATED MOULDED FIBRE PRODUCTION FACILITY

Our manufacturing partner operates India's fully automated moulded fibre plant, powered by ABB robotic technology. Located in Gujarat — just 250 km from Mundra Sea Port — their facility combines precision engineering with unmatched production capacity.

WATCH
FACTORY

youtu.be/TkCHFOkQWVI

KEY FACILITY CAPABILITIES

ABB ROBOTIC TECHNOLOGY

Fully robotic forming machinery with automated pulping system featuring food-grade tanks and piping — eliminating human handling error throughout production.

100% AUTOMATED

PRODUCTION CAPACITY

Current output of 10 metric tons per day, with infrastructure already in place to double output as demand scales (20 metric tons per day).

Suitable for large-format import orders.

SCALABLE FROM 10T TO 20T/DAY

STRATEGIC LOCATION

Situated in Gujarat on a major national highway corridor, just 250 km from Mundra Port — India's largest container port — ensuring seamless logistics and fast container stuffing.

250 KM TO MUNDRA

COATING OPTIONS

Available in natural, PLA-coated, or water-based coated variants, depending on SKU and customer requirement.

Custom colour specifications available on request.

3 VARIANTS

PRIVATE LABEL READY

Full private / white label capability supported with complete documentation.

Custom artwork, mould development, and branded packaging all available for importer brands.

40-50 DAY TIMELINE PRIVATE LABEL

EXPORT PACKAGING

All products packed in 5-ply corrugated master cartons with shrink or PP loose polybag inner packets.

Lot-coded for full batch traceability on every shipment.

QUALITY ASSURANCE SIX-STAGE EXPORT QUALITY ASSURANCE SYSTEM

PRODUCTS ARE MANUFACTURED BY OUR CERTIFIED PARTNER FACILITY UNDER RIGOROUS MULTI-STAGE QUALITY CONTROL PROCESS — FROM RAW MATERIAL VERIFICATION THROUGH TO LOT-CODED BATCH TRACEABILITY ON EVERY EXPORT SHIPMENT.

01 RAW MATERIAL VERIFICATION

Sugarcane bagasse pulp is sourced and independently verified for quality, moisture content, and absence of contaminants before entering the production line.

Sub-standard pulp batches are quarantined and rejected.

02 BATCH-LEVEL INSPECTION

Every production batch is inspected at the moulding and hot-press stage.

Defective units are identified and quarantined before downstream processing—preventing non-conforming product from advancing in the line.

03 DIMENSIONAL & STRUCTURAL CHECKS

Diameter, depth, wall thickness, and structural integrity are verified against approved SKU specifications for each product code.

Tolerance limits are maintained within $\pm 5\%$ per mould specification.

04 MOISTURE CONTROL

All products are measured for moisture content before export packing.

Out-of-specification units are rejected to prevent in-transit degradation, deformation, or microbial activity during ocean freight.

05 CARTON & PACK VERIFICATION

Master carton integrity, count accuracy, inner polybag sealing, and carton marking are checked before container stuffing.

5-ply corrugated cartons with shrink or PP loose polybag inners are used as standard.

06 LOT-CODED TRACEABILITY

Every master carton receives a unique lot code.

Full batch traceability is maintained from the production record to the Bill of Lading for each shipment — enabling rapid identification in the event of any market query.

RELIABLE DELIVERY TO YOUR MARKET

FOB pricing is available upon confirmation of required SKUs and order quantity.
Pricing is optimised based on your product mix and container configuration — please share your SKU selection and estimated monthly or annual volume to receive a tailored FOB price calculation.

PACKING, PRIVATE LABEL & OEM

EXPORT PACKING

5-ply corrugated master cartons with shrink or PP loose polybag inners.

Lot-coded for full batch traceability from production to Bill of Lading.

PRIVATE LABEL

Custom retail stickers, branded master cartons, and full artwork management.

Lead time 40–50 days from approved artwork and confirmed deposit.

OEM MANUFACTURING

Custom SKU specifications, mould development, and branded packaging — available for importers, distributors, and retail brands at scale.

COMPLIANCE DOCS

Declaration of Compliance (DoC) available per EU Regulation (EC) 1935/2004 upon request and PFAS-free certification provided per your market's regulatory requirements prior to shipment.

MIXED-SKU CONTAINERS

Multiple SKUs loaded into a single 20ft or 40ft HC container.

No single-SKU minimum per container — full flexibility for first orders.

CARTON CONFIGURATION

Carton configuration varies by SKU and packing requirements.

All master cartons marked with lot code, SKU code, and destination port details.

Let's Build a Sustainable Supply Chain

We welcome enquiries from importers, distributors, retail buyers, HoReCa procurement teams, and airline caterers. Our team responds within 2 business days with full product documentation, pricing, and sample availability.
